Join us for a special event! Rear Admiral Brian L. LaRoche (retired) USN will be our honored speaker at the June 29th coffeehouse.

Admiral LaRoche will share an interesting presentation on a topic of our history. In the decades following the American Revolution, the Navy was formally established in 1776, and the United States Navy was born. The Navy has a long and proud history of public and private service. The Navy has had to overcome many challenges and has been instrumental in the development of our nation. The Navy has been a vital part of our defense and has played a key role in our nation's history.

Admiral LaRoche will tell the story of our Citizen Sailors Post-1776 and how their efforts to become American at sea during our early years led to the first national recognition of the Citizen Sailor. The Navy has a long and proud history of public and private service. The Navy has had to overcome many challenges and has been instrumental in the development of our nation. The Navy has been a vital part of our defense and has played a key role in our nation's history.

[Connecticut Laurel Girls State 2024](#)

ALA Laurel Girls State is a program in Americanism. The American Legion Auxiliary in CT sponsored the first Laurel Girls State in 1944. The first Chairman/Director was Lillian Yerrington and it was at a time when WWII was raging. The economy relied on a female workforce and the “can do” attitude developed. Since then, the program has grown and thousands of young women have participated. The aim of the program is civic responsibility. Most went on to careers other than politics but there are a few notables such as our current Lt. Gov. Susan Bysiewicz and Sen. Mae Flexer.

Join us for a special event! Rear Admiral Brian L. LaRoche (retired) USN will be our honored speaker at the June coffeehouse. Adm. LaRoche will share an informative presentation on a topic of which few are familiar. In the decades after the United States formally declared its independence in 1776, Americans struggled to gain recognition of their new republic and their rights as citizens. None had to fight harder than the nation's seamen (U.S. Navy), whose labor took them far from home and deep into the Atlantic world. Adm LaRoche tells the story of our Citizen Sailors Post-1776 and how their efforts to become American at sea during war and revolution created the first national, racially inclusive model of United States citizenship. Also, learn more about the U.S. Navy and its daily mission to keep America safe.
