Acoustic Instrument Building Program for veterans with PTSD, traumatic brain injuries, range of motion difficulties and parent/child family rebonding after deployment.

Our Veterans Base Camp Instrument Program centers on improving the self-confidence and range of motion issues found in PTSD and traumatic brain injuries found in veterans of all services. Additionally, the program can be used to reconnect parent/child relationships after long periods of deployment.

The program is free to applicable veterans and children and is funded entirely by donations and the sale of donated used instruments that were refurbished in our workshop.

We have a range of instruments available for individual classes to include acoustic guitars, electric guitars, mandolins, ukeleles and

mountain dulcimers. Each style of instrument has its own skill-level and we can suggest the appropriate instrument for the veterans abilities.

To our knowledge our workshop is unique among veteran programs and offers a tangible reward while focusing on the veteran's abilities and pace of construction.

The instructor himself is a combat veteran, providing a closer relationship and bond between the student and teacher in many instances.

What may seem impossible to the entering student becomes a source of self confidence when the instrument is completed.

The American Legion's official training program for officers, members, Legion College applicants and those who simply want to expand their knowledge of the nation's largest veterans service organization is now available online. Already taken the old course? The American Legion Extension Institute has been rewritten, updated, streamlined and enhanced with videos, digital photos, clickable links, a historical timeline and additional features. The program should take less than two hours to complete. It is divided into six sections, with a quiz at the end of each one, followed by a final exam.

- provide the opportunity to continue in the program as a volunteer for future clients

Horse Feathers is our largest active volunteer and participant group at the farm. Begun in 2015, Horse Feathers is an animal assisted wellness program that meets once a week to teach driving and horsemanship skills. The program also includes small animal assisted learning and has an active gardening group as well.

Our veteran volunteers have become active in many areas of the farm, especially bonding and working with our older sanctuary animals. They also help out with other areas of therapeutic horsemanship, not to mention the wonderful help our Veterans give us during our annual fundraisers.

The Horse Feathers group is entirely funded out of contributions. No charge is assessed to any member.
